Friday,
Sept 5, 2025

Interested persons may apply through Jobvite on belco.bm/opportunities

Transmission & Distribution (T&D)

BELCO is seeking a system Operator to join our Transmission & Distribution (T&D) team. The successful applicant will be responsible for performing control and monitoring tasks on both Power Generation and Grid Operation systems to ensure continuous supply of electricity.

Key Responsibilities

- Coordinate system activities during critical alarms, emergencies or shutdowns
- Respond to customers' inquiries and issues
- Perform switching procedures for planned outages
- Conduct performance evaluations, testing and commission modified or new control systems
- Communicate effectively with Power Generation and Grid Operations operational personnel
- Provide guidance, on-the-job training to team members and one-on-one coaching

Education, Experience and Skills

- College degree or certificate in relevant field or equivalent work experience
- Certified in First-Aid and Technical Distribution Systems Operations
- Knowledge of Energy Supply policies and procedures
- Knowledge of Health & Safety, Environmental Management and Quality Management systems, processes and procedures
- Familiar with basic physics considered an asset
- Excellent written and verbal communication skills
- Strong analytical thinker with excellent problem solving abilities
- Excellent computer skills with experience in Microsoft Office applications and other programmes associated with the position
- Exceptional interpersonal skills with the ability to liaise with all levels of the organisation
- Ability to follow-through on regular and emergency assignments

BELCO is a drug, alcohol and smoke free environment. All successful applicants are required to pass a pre-employment drug and alcohol screening prior to an offer of employment.
